CathexisVision®
## Video Surveillance Management Solutions

FREE DOWNLOAD

A powerful new mobile solution

The CathexisVision Mobile App places our video management tools in the palm of your hand.

Receive event notifications and review footage from wherever you are, or use the activity monitoring feature to show cameras when events are detected. Trace an incident using intelligent Motion Search and Snap Search tools, or track incidents in real-time by using adjacent camera overlays. Bookmark, export or grab a screenshot of an incident with one tap.

The CathexisVision Mobile App boasts impressively fast video streaming, and a simplified interface and setup, providing customers with greater mobile video management capacity than ever before.

Simple operation

- Easy to use
