# 1. Introduction

This document covers the features, modifications, and fixes made to software in the **Carbon Suite 5.2** which comprises the following products:

- 👁 CathesisVision Carbon 5.2
- 👁 CathesisVision Mobile 5.2
- 👁 CathesisVision MultiSite 5.2
- 👁 CathesisVision Enterprise 5.2

New features, modifications, and fixes affect either some or all of the products in the Carbon Suite 5.2.

The key area in each section specifies if the feature, modification, and fix applies to all products (General) or a specific product (Carbon, Mobile, MultiSite, or Enterprise).

## 1.1 General Notices

1. The Carbon User Interface is supported from [CathesisVision 2022.1](#) onwards.
2. CathesisVision Mobile is supported from [CathesisVision 2022.1](#) onwards.
3. Enterprise is supported from [CathesisVision 2021.1](#) onwards; however, it is recommended to be used with [CathesisVision 2023.1](#) and later.
4. [CathesisVision 2023](#) is the first CathesisVision server version to support CathesisVision MultiSite.
5. [Carbon 5](#) is required to connect to an [Enterprise 5](#) server.

## 2. Features

	Key Area	Software Change
1	General	<p>Updates have been made to the following translations:</p> <ul style="list-style-type: none"><li>• Croatian</li><li>• French</li><li>• German</li><li>• Italian</li><li>• Portuguese</li><li>• Russian</li><li>• Spanish</li><li>• Ukrainian</li></ul>

### 3. Modifications

	Key Area	Software Change
1	MultiSite	Layouts can now be added to maps on a MultiSite server.

## 4. Fixes

Key Area		Software Change
1	Carbon	Fixed an issue with 'My layouts' in the Enterprise Monitor side panel. Only layouts that contained resources within the same domain as the monitor itself would be shown. The monitor can now display cameras from any sub-domains.
2	Carbon	Fixed an issued with the software version filter on the Carbon Hardware tab server table.
3	Carbon	Fixed an issue where copying a link from a restored snap search tab would fail.
4	Carbon	Fixed an issue where a Carbon database session would not reconnect after the Enterprise had restarted.
5	Carbon	Fixed an issue where double-clicks on an alarm preview dialog would 'fall through' to the alarm table, resulting in a different preview being opened.
6	Carbon	Fixed an issue where the review of a second camera would not automatically open when handling an alarm.
7	Mobile	Fixed an issue where the iOS mobile app crashed when ANPR overlays were enabled.
