CATHEXIS®

CathexisVision®

Video Surveillance Management Software

PRIVACY GUIDES

GUIDELINES ON GDPR AND POPIA COMPLIANCE FOR CATHEXIS CUSTOMERS

As a global company in the security industry, Cathexis prioritises data protection. We are also committed to helping our clients comply with data protection laws.

The EU's **General Data Protection Regulation** and South Africa's **Protection of Personal Information Act** are relevant to many Cathexis clients.

Compliance depends on the combination of an organisation's access to and use of personal data, and how it uses products (in this case, VMS software).

Cathexis has produced POPI and GDPR Privacy Guides that provide guidelines for understanding personal data protection when using CathexisVision.

FEATURES OF THE CATHEXIS PRIVACY GUIDES

?
Thorough explanation of data subjects' rights
Definitions and applications of important concepts

📎
Backed up with references to legislation
Links to useful websites, articles and resources

✔
Instructions for data controllers and responsible parties

📹
Tips on compliance specifically relating to video surveillance

📄
Guidelines/templates for compiling important documentation
