

NEMTEK ELECTRIC FENCE SYSTEM INTEGRATION

Protect people, animals, and property with a powerful integrated solution for video monitoring and fence management.

CathexisVision's integration with Nemtek Electric Fences allows clients to **manage electric fences** and **video footage** from one seamless interface.

Nemtek has been an innovative, reliable force in the electric fence industry for over 30 years. Manufacturing a full range of energizers and fencing hardware, **Nemtek provides security fencing** for agricultural animal management, as well as industrial, commercial and residential properties.

This powerful integration streamlines management of security systems by controlling outputs or zones automatically when events are detected by **CathexisVision's intelligent video analytics**. Fence events are saved and stored on our user-friendly **database**, together with associated video footage.

Nemtek is globally recognised as an industry specialist in **perimeter security** and animal management. **Cathexis** is proud to integrate this trusted product with our **security solution**.

PARTNER:	Nemtek
TYPE:	Fence Management System
PRODUCT:	Druid Controller FG7, Druid 25 & 28 LCD Energizers, Druid 20 LCD Fence Monitor, LCD Controllers, I/O card.
PACKAGE:	CathexisVision 2016.4, 2017.2, and 2018. 2 and later

INTEGRATION CAPABILITIES

- Monitor CCTV and fences on a single system which provides video verification of fence events.
- Search and filter the database to find access control events and associated video footage.
- Generate reports in CathexisVision on data received from the fence system.
- Add device to a site map.
- Create unique actions triggered by fence events, such as:
 - Record or control cameras
 - Send event info to local or off-site control rooms
 - Send email or SMS notifications
 - Play audio clips
