DORMAKABA ACCESS CONTROL INTEGRATION
POWERFUL INTEGRATED SOLUTIONS FOR VIDEO MONITORING AND ACCESS CONTROL

A fully integrated video and access control solution for residences and businesses

OVERVIEW

Cathexis has developed an integration with another fantastic third-party security system: Dormakaba, an integrated access control solution for controlling and monitoring access on doors and locks, and for managing entrance and exit in a residence or workplace.

CathexisVision offers an efficient, all-in-one security solution for managing third-party integrations, so that users are able to view and monitor Dormakaba access control events from the CathexisVision interface, together with associated video footage of the events. Additionally, the integration allows users to configure suspicious events – such as denied access – to trigger alarms and notifications. All video and access control data is stored in one place: our reliable and accessible database.

CathexisVision is designed to enhance operational efficiency, emergency response times, and incident management.

SUMMARY

PARTNER:	Dormakaba
TYPE:	Access Control
PRODUCT:	Dormakaba AC
PACKAGE:	CathexisVision 2023.1 or later

INTEGRATION CAPABILITIES

- Monitor CCTV cameras together with access control on a single system which provides video verification of access events.
- Search and filter the database to find access control events and associated video footage.
- Generate reports in CathexisVision on data received from the Dormakaba device.
- Add device to a site map.
- Create unique actions triggered by access control events, such as:
  - Record or control cameras
  - Send event info to local or off-site control rooms
 - Send email or SMS notifications
 - Play audio clips
