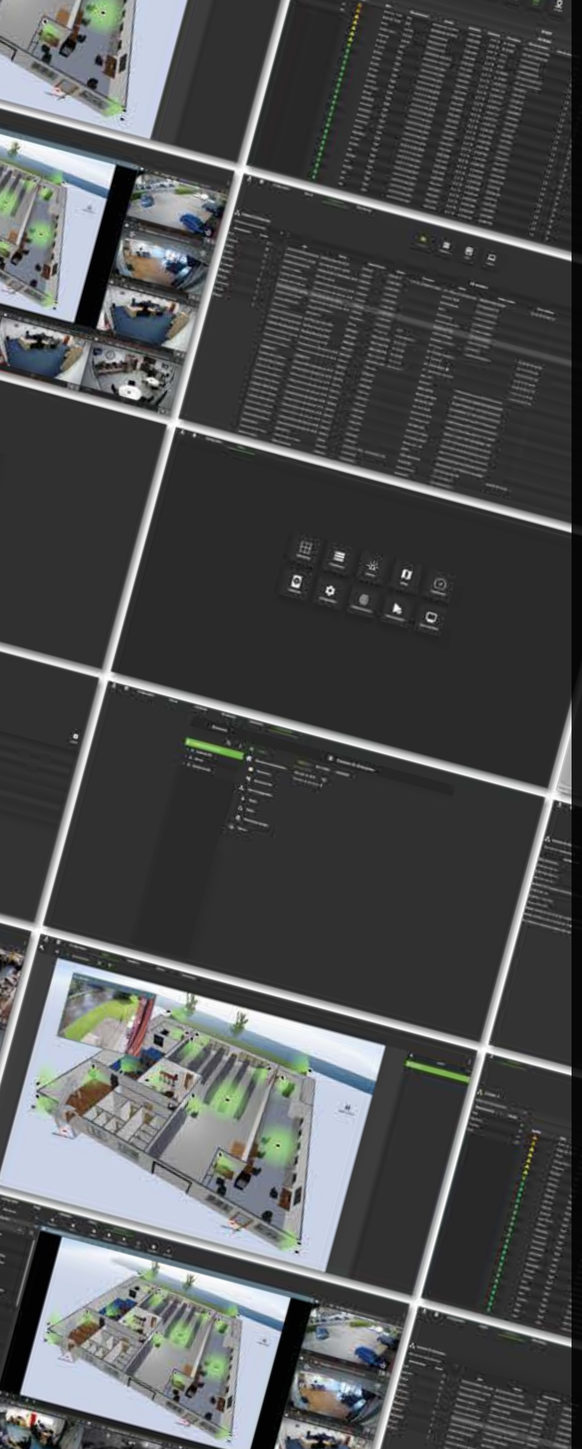
CATHEXIS®

CathexisVision® ENTERPRISE

MANAGEMENT WITHOUT LIMITS



Cathexis is proud to introduce **CathexisVision Enterprise**, our premier solution for **managing an estate of installations centrally**.

You can manage **thousands of cameras, third-party systems**, **hardware** and **user access** – all from one location.

For cost reduction, maximum effiency, and return on investment, choose

CathexisVision®
ENTERPRISE

Manage all sites, wherever you are in the world

Hardware performance dashboard

Comprehensive component **asset register**

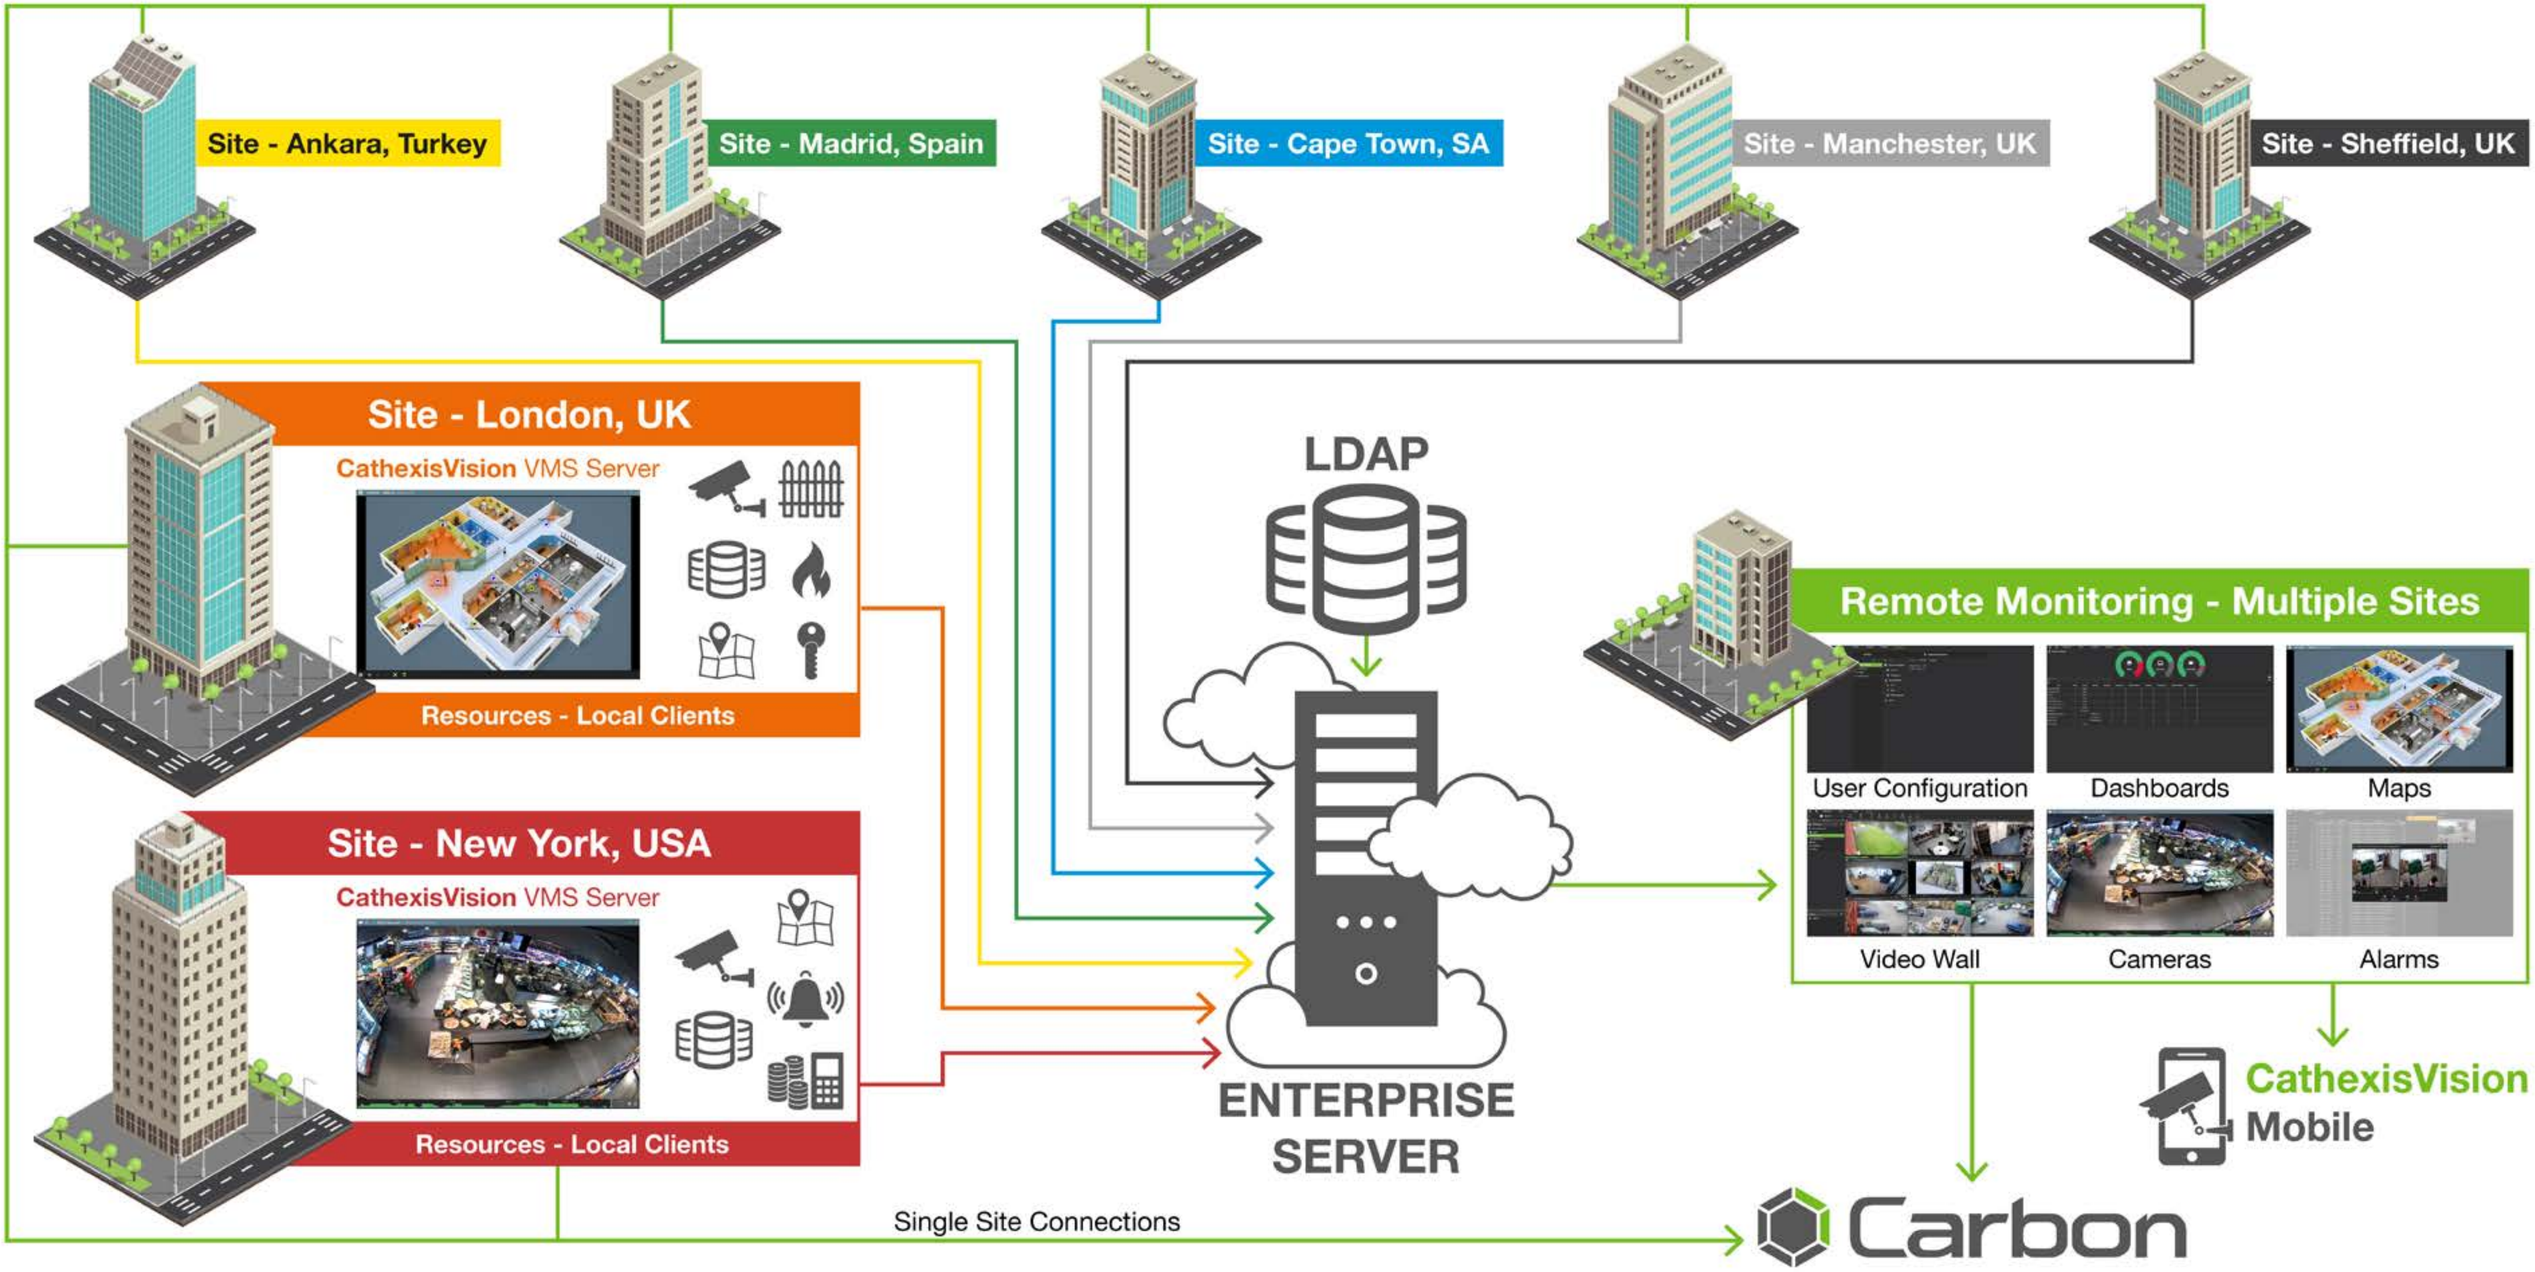
Centralised user management - customise access based on region or role

Enterprise **Video Wall**

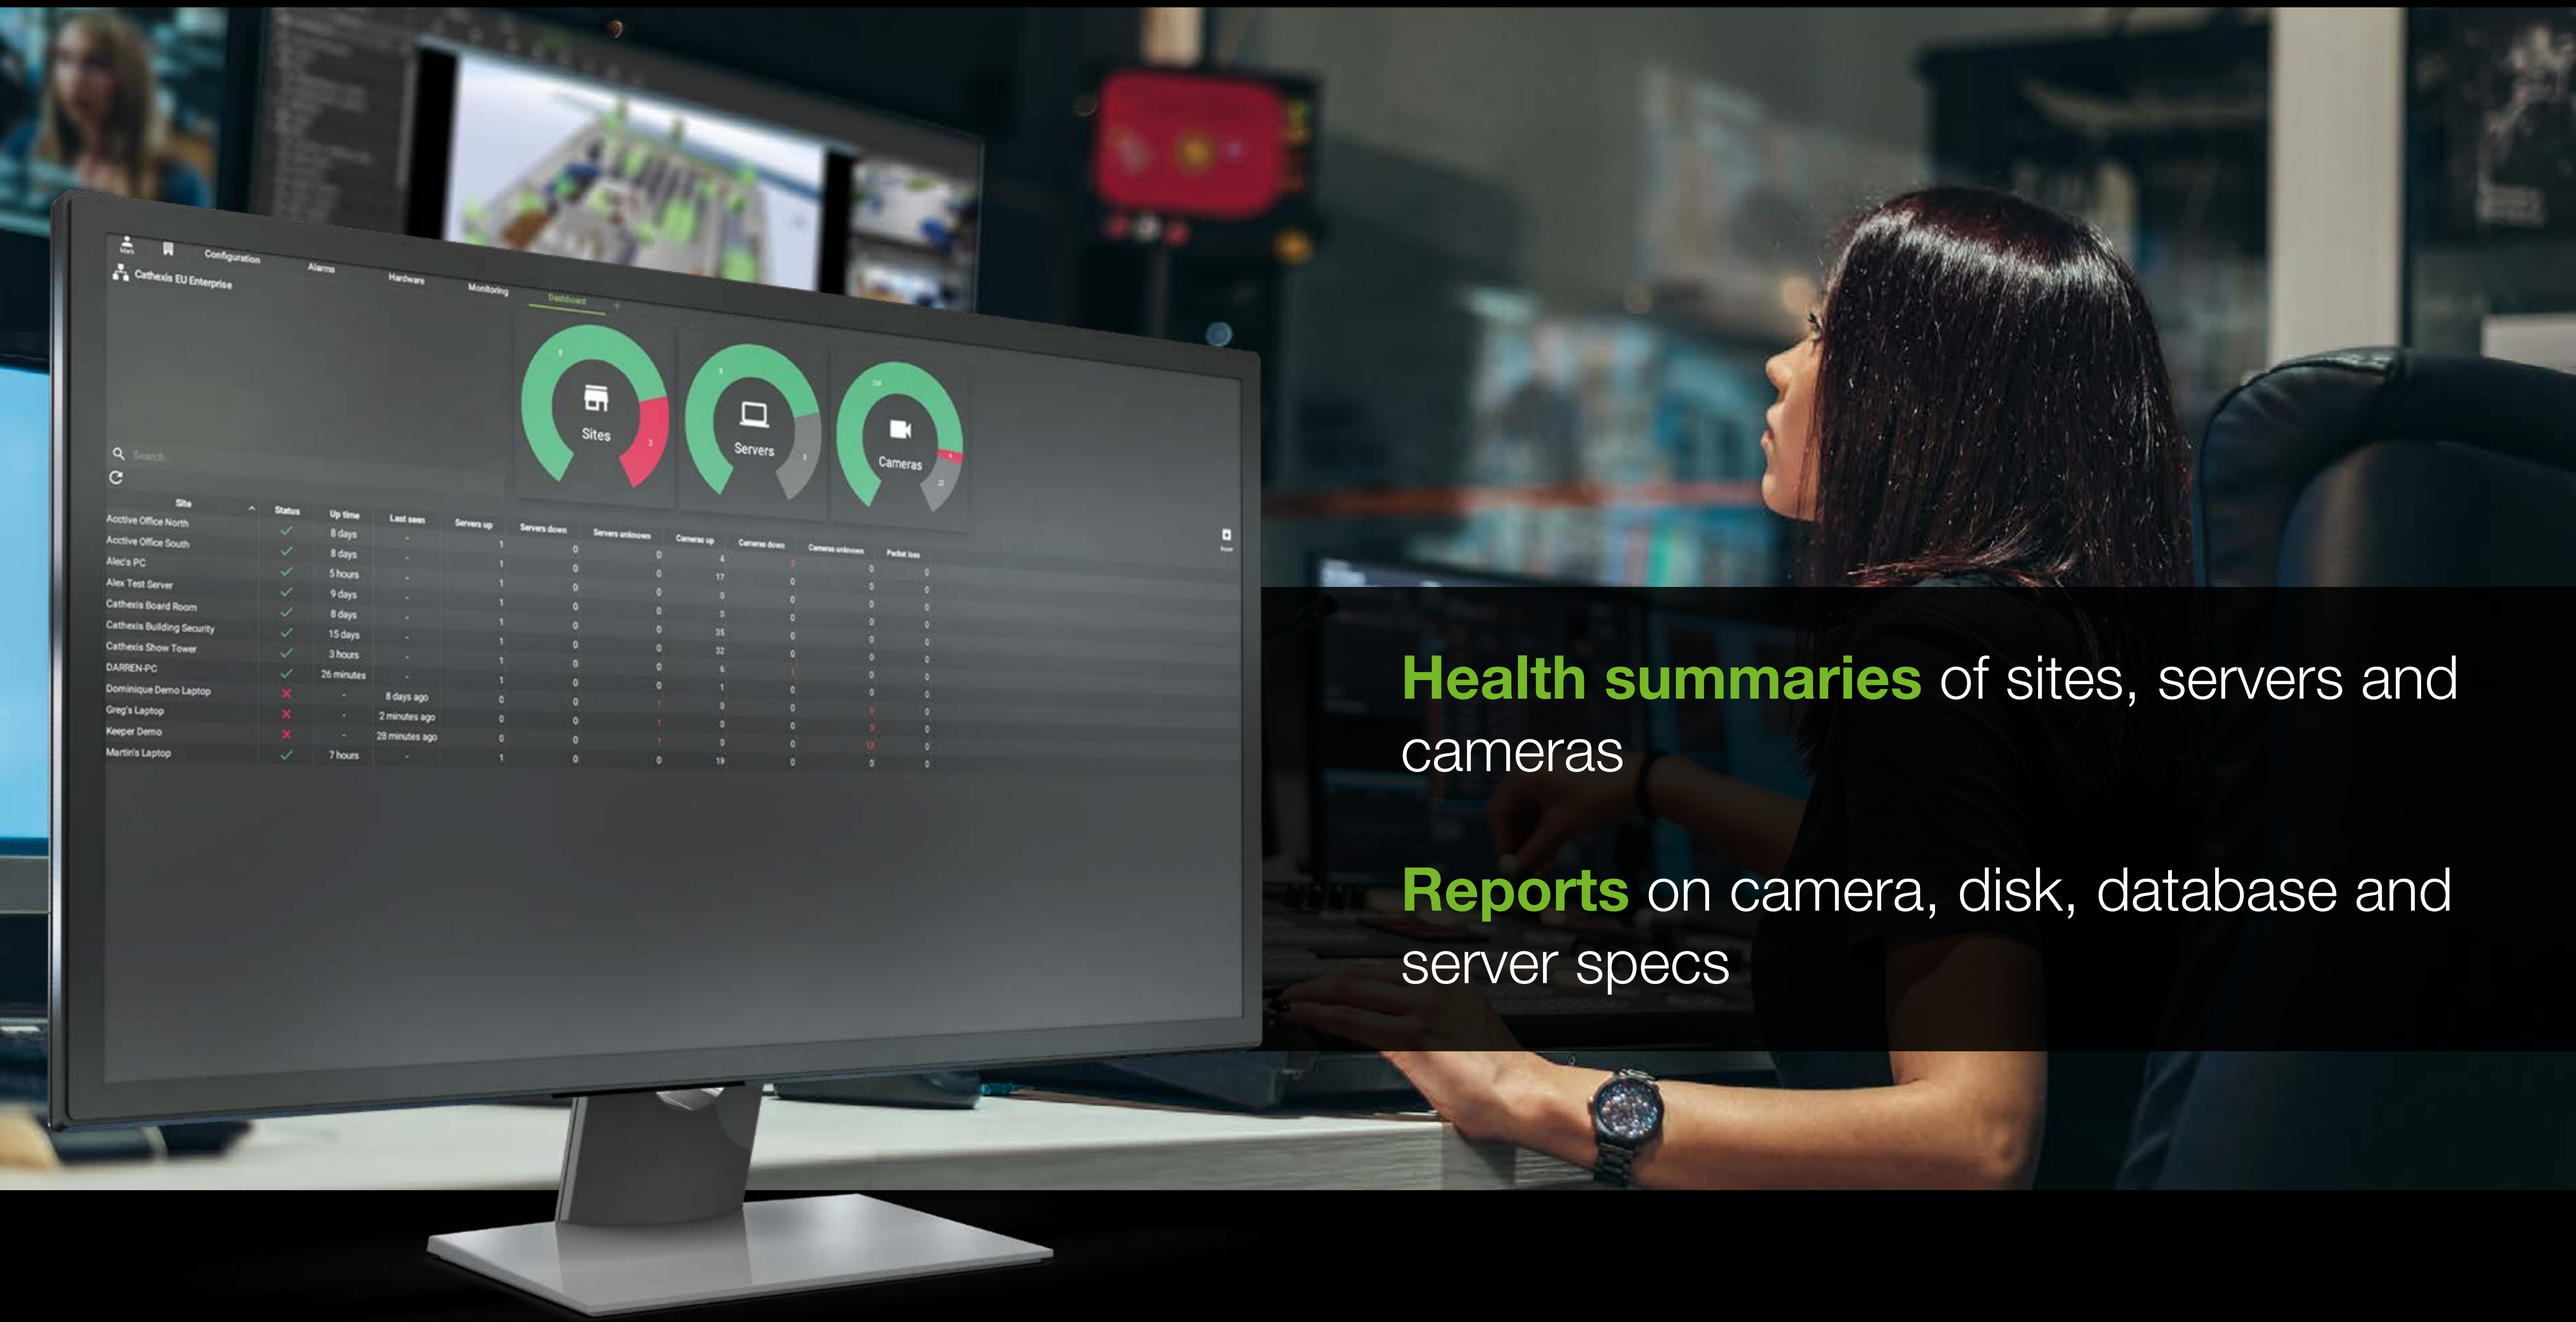
Enhanced Alarm interface and customisable alarms

Embedded in the **Carbon user interface**

How Enterprise works



A wealth of data is just a click away



Health summaries of sites, servers and cameras

Reports on camera, disk, database and server specs

Asset management that maximises ROI and efficiency

- **Forecast capital expenditure** and plan ahead
- **Reduce maintenance costs** through remote repair
- **Streamline work processes** across the organisation
- **Minimise carbon footprint** with fewer repair teams on the road

Start using CathexisVision Enterprise today

1. **Contact a Cathexis distributor** and **purchase** the specified **per-camera enabler licenses** for cameras in Core and Professional sites. (Premium sites can connect to Enterprise automatically.)
2. **Contact Cathexis Support** (support@cathexisvideo.com) to receive the **installation** file.
